

MSDS

GT Ultra Energy 5W20

Date Prepared: 10/23/14

1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Material Identity Product Name: GT Ultra Energy SAE 5W20 API SN/ILSACGF-5 General or Generic ID: PETROLEUM BASED-LUBRICATING OIL

Telephone Numbe	rs
Emergency:	+82-52-238-7605
Information:	+82-2-3284-3446
	Emergency:

2. COMPOSITION/INFORMATION ON INGREDIENTS

Ingredient(s)	CAS Number	% (by weight)
Lube Base Oil	64742–54–7	82.0 - 88.0
Viscosity Modifier	Mixture	3.0 - 12.0
Performance Package	Mixture	8.0 - 11.0
Pour Point Depressant	Mixture	0.1 - 1.0

3. HAZARDS IDENTIFICATION

Potential Health Effects

Eye

Unlikely to cause eye irritation or injury.

Skin

Prolonged or repeated contact may dry and crack the skin. Additional symptoms of skin contact may include: allergic skin reaction (delayed skin rash which may be followed by blistering, scaling and other skin effects).

Swallowing

Swallowing small amounts of this material during normal handling is not likely to cause harmful effects. Swallowing large amounts may be harmful.

Inhalation

Breathing of vapor is possible. Breathing small amounts of this

HANVAL INCORPORATED 13th Floor,KSCFC bldg., 395-70 Shin Dae Bang-Dong, Dongjak-Ku, Seoul, Korea E-mail: woyong_lee@valvoline.co.kr www.valvoline.co.kr

GT Ultra Energy 5W20

Date Prepared: 10/23/14

material during normal handling is not likely to cause harmful effects. Breathing large amounts may be harmful.

Symptoms of Exposure

Signs and symptoms of exposure to this material through breathing, swallowing, and/or passage of the material through the skin may include: stomach or intestinal upset (nausea, vomiting, diarrhea) irritation (nose, throat, airways), headache.

Target Organ Effects No data

Developmental Information

There are no data available for assessing risk to the fetus from maternal exposure to this material.

Cancer Information

Based on the available information, this material cannot be classified with regard to carcinogenicity. This material is not listed as a carcinogen by the International Agency for Research on Cancer, the National Toxicology Program, or the Occupational Safety and Health Administration.

Other Health Effects No data

Primary Route(s) of Entry Inhalation, Skin contact, Eye contact, Ingestion.

4. FIRST AID MEASURES

Eyes

If symptoms develop, move individual away from exposure and into fresh air. Flush eyes gently with water while holding eyelids apart. If symptoms persist or there is any visual difficulty, seek medical attention.

Skin

Remove contaminated clothing. Wash exposed area with soap and water. If symptoms persist, seek medical attention. Launder clothing before reuse.

Swallowing

Seek medical attention. If individual is drowsy or unconscious, do not give anything by mouth; place individual on the left side with the head down. Contact a physician, medical facility, or poison control center for advice about whether to induce vomiting. If possible, do not leave individual unattended.

MSDS

GT Ultra Energy 5W20

Date Prepared: 10/23/14

Inhalation

If symptoms develop, move individual away from exposure and into fresh air. If symptoms persist, seek medical attention. If breathing is difficult, administer oxygen. Keep person warm and quiet; seek immediate medical attention.

Note to Physicians

Preexisting disorders of the following organs (or organ systems) may be aggravated by exposure to this material: skin.

5. FIRE FIGHTING MEASURES

Flash Point 212 ℃

Explosive Limit No data

Autoignition Temperature No data

Hazardous Products of Combustion

May form: aldehydes, alkyl mercaptans, carbon dioxide and carbon monoxide, hydrogen sulfide, nitrogen oxides, phosphorous oxides, sulfur oxides, toxic fumes, various hydrocarbons.

Fire and Explosion Hazards

Never use welding or cutting torch on or near drum (even empty) because product (even just residue) can ignite explosively. Dense smoke may be generated while burning.

Extinguishing Media

regular foam, water fog, carbon dioxide, dry chemical.

Fire Fighting Instructions

Water or foam may cause frothing which can be violent and possibly endanger the life of the firefighter. Wear a self-contained breathing apparatus with a full facepiece operated in the positive pressure demand mode with appropriate turn-out gear and chemical resistant personal protective equipment. Refer to the personal protective equipment section of this MSDS.

NFPA Rating

Health - 1, Flammability - 1, Reactivity - 0

6. ACCIDENTAL RELEASE MEASURES

Small Spill

Absorb liquid on vermiculite, floor absorbent or other absorbent material.

Large Spill

Prevent run-off to sewers, streams or other bodies of water. If run-off occurs, notify proper authorities as required, that a spill has occured. Persons not wearing protective equipment should be excluded from area of spill until clean-up has been completed. Stop spill at source, dike area of spill to prevent spreading, pump liquid to salvage tank. Remaining liquid may be taken up on sand, clay, earth, floor absorbent, or other absorbent material and shoveled into containers.

7. HANDLING AND STORAGE

Handling

Containers of this material may be hazardous when emptied. Since emptied containers retain product residues (vapor, liquid, and/or solid), all hazard precautions given in the data sheet must be observed. Avoid prolonged or repeated contact.

Storage

Keep containers closed when not in use. Do not store near high heat or open flames.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Eye Protection

Not required under normal conditions of use. However, if misting or splashing conditions exist, then safety glasses or chemical splash goggles are advised.

Skin Protection

Not normally required. However, wear resistant gloves such as nitrile rubber to prevent irritation which may result from prolonged or repeated skin contact with product.

Respiratory Protections

Not required under normal conditions of use. However, if oil mists are generated above recommended PEL/TLV of 5 mg/m3, then a NIOSH/MSHA approved respirator is advised in absence of proper environmental control. (See your industrial hygienist.)

рН	No data
Visc	osity 8.436 cSt @ 100℃
10.	STABILITY AND REACTIVITY
Haza	ardous Polymerization Product will not undergo hazardous polymerization.
Haza	ardous Decomposition May form: aldehydes, alkyl mercaptans, carbon dioxide and carbon monoxide, hydrogen sulfide, nitrogen oxides, phosphorous oxides, sulfur oxides, various hydrocarbons.
Chei	mical Stability Stable. Avoid heat, open flame, and prolonged storage at elevated temperatures.
Inco	mpatibility Avoid contact with: strong oxidizing agents.
11.	TOXICOLOGICAL INFORMATION
	No data
12.	ECOLOGICAL INFORMATION
	No data
13.	DISPOSAL CONSIDERATION
Was	te Management Information Dispose of in accordance with all applicable local, state and federal regulations.

14. TRANSPORT INFORMATION
